Commentary

Economic Review: The country continue to track on economic recovery with a landmark clinging of IMF program of ~USD 7 Billion. Central Bank also rejuvenated with an announcement of receiving the first tranche of ~USD1,027 million (SDR 760 million). The program highlights major structural refit for the economic managers to maintain a strong, resilient and inclusive growth. The Fund mentioned (i) consistent and sound macro economic policies (ii) broadening tax base(iii) reforming State Own Enterprises (iv) incorporating climate resilience for growth sustainability. Economic growth is expected at ~3.2% for FY25 while inflation rate has declined to average ~9.5% for FY25. A slowdown in global energy prices have also boded well for the country. A gradual recovery in LSM along with stable exchange rate and sustained FX reserves buildup is expected to lay a strong foundation for sustained economic growth. Open market yields have also declined which also indicates a strong cut for the upcoming MPS in Nov'24. External account also remains a factor which the country has been able to manage with the Current Account achieving a surplus for Aug'25 to end at USD 75 million with 2mFY25 Current Account deficit of USD171 million compared to a deficit of USD893 million SPLFY.
